

Narita International Airport pledge its airport's commitment to the fight against Human Trafficking in support of the efforts by the Japanese Government and International Organizations.

Air Transport, being a fast and convenient mode of transport, people, commodity and businesses are carried across border to every corner of the world and is meant to contribute to global economic growth. Unfortunately, human traffickers deliberately use this speed and convenience for their criminal activities in smuggling their captive victims through the airports and transport on aircrafts engaging in immoral trade.

We will carry out trainings for the airport workers to raise awareness so the people at our airport can sense, feel and act upon any signs of potential smuggling of human trafficking victims across our airport to prevent, save and end the ordeal of the people in captive.

Airline and Airport staff have their #eyesopen

What **you** can do to help fight #humantrafficking

Some facts

25million people globally are living in modern slavery

Over 60% of victims are trafficked **across international borders**

Traffickers misuse the speed and efficiency of aviation to transport victims who may be traveling undetected on aircraft and through airports

The aviation industry is **committed to playing its part** to help governments and law enforcement tackle this issue by **raising awareness** and by **training staff** to spot the signs of potential human trafficking

Key signs of potential human trafficking situations

- 👁 Is the person disoriented or confused, or showing signs of mental or physical abuse?
- 👁 Is the person fearful, timid, or submissive and do they avoid eye contact?
- 👁 Does the person show signs of having been denied food, water, sleep, or medical care?
- 👁 Does the passenger defer to another person to speak for him or her or someone who seems to be in control of the situation, e.g., where they go or who they talk to?
- 👁 Is the passenger (especially children) accompanied by someone claiming to be a parent or guardian who is in fact not related to the child?
- 👁 Is the passenger in control of his/her own travel documents?
- 👁 Does the person have freedom of movement?
- 👁 Is the passenger wearing appropriate clothing for route or destination weather?
- 👁 Is the person speaking of modelling, dancing, singing, hospitality job, etc. without knowing who will be meeting him/her upon arrival, and with few details about the job?
