

Skymark to Launch Narita - Saipan and Narita - Nagoya Service on 29 November

Skymark Airlines (IATA code: BC) will launch two new services, Narita-Saipan and Narita-Nagoya, on 29 November 2019. This is the only direct service from Japan to Saipan and is the airline's first international service.

Saipan is a year-round summer resort with crystal clear seas and white sandy beaches. Just three and a half hours from Narita and only one hour's time difference, it is a great place for families to take small children. As well as marine sports, there are plenty of other activities including golf and cycling and beach barbeques in the evening watching the sun go down.

Narita Airport will continue to expand its network to offer more convenient selection of flights and destinations for our customers. Please take advantage of Narita Airport's extensive flight service network, now even more with the Skymark Airlines' Saipan and Nagoya services.
