Xiamen Airlines Launches New Fuzhou Service on 27 October 2019

Xiamen Airlines (IATA code: MF) has been operating regular charter services between Narita and Fuzhou but launched a new schedule service between the two centers on 27 October 2019. A full service carrier (FSC), this is the airline's first scheduled service to Narita Airport. The capital of Fujian Province, Fuzhou is an attractive destination steeped in an abundance of nature and a rich history. Sanfang Qixiang in Fuzhou's city center is a museum-like tourist spot where vestiges of the old city remain.

Narita Airport will continue to expand its network to offer our customers a more convenient selection of destinations. Make Narita Airport your choice for your next trip abroad with its vast array of destinations now improved by Xiamen Airline's new Fuzhou service.
