

23 December 2019

China Eastern Airlines to Launch New Routes between Narita and Yantai, Wuhan, Qingdao, and Kunming from 2020!

From 2020, China Eastern Airlines (IATA code: MU) will further expand Narita Airport's network of routes to China. China Eastern's new services at Narita Airport comprise four routes – Yantai, Wuhan, Qingdao, and Kunming. Among them, the Yantai and Kunming routes will be the first to service those destinations from Narita Airport.

Yantai is a port city located in the northern Shandong Peninsula. With beautiful sandy beaches stretching along the coastline, it is a popular destination for many beachgoers looking to escape the summer heat. Kunming, the capital of Yunnan province, is known as the 'City of Eternal Spring' for its year-round gentle climate. The city's outskirts feature many attractions, including the UNESCO World Heritage-listed Stone Forest and Yunnan Ethnic Village, where visitors can experience the cultures of the 25 ethnic minorities that reside in the province.

Narita Airport will continue to expand its network to offer more convenient selection of flights and destinations. Please take advantage of Narita Airport's ever-growing flight service network, now even more with the China Eastern's new services.

Yantai

Kunming Stone Forest
