

19 October 2020

ZIPAIR to Launch New Narita - Bangkok Passenger Service on 28 October 2020!

ZIPAIR (IATA code: ZG) will launch a new passenger service from Bangkok to Narita on 28 October. The carrier operates a cargo service on the route and this new passenger service will operate in addition to its passenger service between Narita and Seoul.

ZIPAIR launched its first passenger service on 16 October to Seoul and offers a quality on-board experience with full-flat seats and in-flight services such as better in-flight Wi-Fi and free entertainment. The new Bangkok service is expected to offer passengers greater convenience and bring ties between the two countries closer while also contributing to the development of their economies.

Narita Airport will continue to expand its network to offer our customers a more convenient selection of destinations. We invite you to take advantage of the network of destinations and services provided by Narita Airport, now made even better by ZIPAIR's Bangkok service.

The many faces of Bangkok
