Peach to Launch New Services from Narita to Memanbetsu and Oita in February 2021 !

- Network Expands to Eastern Hokkaido and Kyushu -

Peach Aviation (IATA code: MM) will launch new flights to Memanbetsu from 10 February 2021 and Oita from 19 February. With this new service, the airline will serve 12 domestic destinations (Sapporo, Memanbetsu, Kushiro, Osaka (Kansai), Fukuoka, Nagasaki, Oita, Miyazaki, Kagoshima, Amami, Naha, and Ishigaki) from Narita Airport, bringing the number of routes to the same level as that of Kansai Airport.

Memanbetsu, the gateway to eastern Hokkaido, along with Kushiro, which the airline launched services to in August 2020, offers beautiful scenery that changes with the seasons, such as the World Heritage Shiretoko and Abashiri Lake, which is famous for its ice formation, and provides a new sensation on every visit.

Oita, a charming location with rich scenery, is home to many of Japan's leading hot spring resorts, including Beppu Onsen and Yufuin Onsen. Visitors can enjoy the rich flavors of Oita, such as seasonal fish from Bungo Channel and wagyu from Japanese beef raised in a natural environment.

With these two new network destinations, Narita Airport is the natural choice for your next flight.

*Eastern Hokkaido refers to the area in the east of the island encompassing Shiretoko, Kushiro, Furano and Tokachigawa Onsen (Hot Springs).
