Team NRT Customer Hospitality Program - Japanese Cultural Experience Through Origami -

The Narita Airport CS Council will hold an event in which customers departing from Japan can take part in a cultural experience through origami.

As a means of incorporating their gratitude to our customers and their best wishes for a safe flight, airport staff will distribute "tree paper"*1 made from felled timber and "origami cranes", which are made from folded paper in Japanese patterns as gifts, and offer customers the fun-filled opportunity of making their own origami. Corners will be set up where customers can take home origami made by airport staff.

In addition, photo opportunity corners with origami cranes made by airport businesses and the TEAM EXPO 2025 Origami JAPAN Executive Committee*2 will be available for about one month from the opening of the event. Please refer below for more details.
