

20 October, 2023

New Narita - Busan Route to be Launched by JINAIR on October 29, 2023

JINAIR (IATA code: LJ) will launch a scheduled passenger service between Narita and Busan on Sunday, October 29, 2023. JINAIR is an LCC based in Seoul, South Korea. Together with its Seoul route, this becomes their second route from Narita.

Busan, the second largest city in South Korea after Seoul, has long been a port city with strong connections with Japan due to its geographic proximity to Japan. Jagalchi Market, located along the seafront, is a lively place where fresh seafood is sold straight from the sea. Gamcheon Culture Village, often described as a picturesque 'postcard' village, is one of the popular photo spots that attracts peoples' attention of all ages.

We hope you will take advantage of Narita Airport's network to Busan, now even more convenient with the new JINAIR service.

Jagalchi Market

Gamcheon Culture Village
