

Airport Use for Business Aviation Made Easier

- Slot and Stand Vacancies Released on the Website -

Tokyo, 29 September 2011: NAA is striving to create a multifunction airport with the ability to meet a diverse range of needs, including those of LCCs and business aviation, as the capacity of Narita International Airport increases.

As part of this drive, we are proud to announce that, in collaboration with the Civil Aviation Bureau, we are now able to display our available slot and stand vacancies on our website for the benefit and convenience of business aviation operators.

Business aviation operators will now be able to check availability of slots and stands on the website in advance before lodging their requests for access.

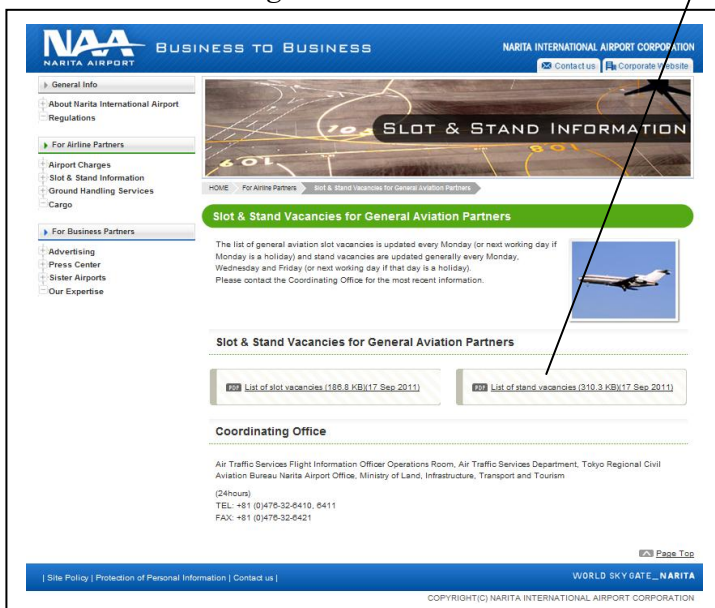

Release date: Monday, 3 October 2011

※ Only information on slots and stands will be available from 3 October. Web application facility to use vacancies will be added to the site at a later date.
