

## Introduction of Ingredient Pictograms in Restaurant Menus

Tokyo, 29 May 2014: As part of Narita's drive to become our customers' preferred airport, pictograms will be used to indicate the ingredients used in menu items for the benefit of customers who are unable to eat food for religious- or belief-based reasons, allergies.

(1) Where: All food and beverage outlets

(2) Pictogram types:

14 (Beef, pork, chicken, sheep, fish, shellfish, alcohol, crab, prawn, egg, wheat, buckwheat, dairy produce, peanuts)

(3) Commencing: To be gradually introduced from July 2014

\* Pictograms have been designed by the NPO, Internashokunal
